S I R:

This is in response to the Restriction Requirement mailed April 17, 2007.

Applicant elects without prejudice Species II, Sub Species II(c) so as to include the embodiment of Figures 17a-b, 19, 25-28. All of the currently pending claims read on the elected Sub Species when viewed in the context of the Optimizing Planer System of which the embodiment of the elected Sub Species forms one part. That is, the optimizing planer having a single plane six axis shaping module forms part of an optimizing planer system such as seen in Figures 3, 4 and 5.

Respectfully submitted,
